This is a main property of approximately 380m² as well as a secondary property for guests measuring 105m².

The main property has two large lounges, four large bedrooms and three bathrooms. It was built in 1989 and is found in a perfectly conserved condition, although there aren't legal restrictions for a possible interior renovation.

It is a large building, but, without a doubt, the best thing is its location, on a plot of land measuring almost 40,000m² of natural park and in front of the sea. In fact, there is direct access from the garden and the property's swimming pool up to a small cove.

This is a unique and unforgettable property.

The plot of land, rustic and protected, allows certain uses, like sport or the possibility of a small parking area for Zodiac boats. The property price also includes two moors in Alcocebre's marina.

The area is very secure and, despite its privacy, is located less than two kilometres away from a town centre with all services.
